

Answer Key (MCQs)

1. B. It provides tools for handling biological sequences and data efficiently
2. A. It can automate repetitive biological data analysis tasks
3. B. Reading and processing biological sequence file formats
4. B. Large datasets can be processed faster and with fewer human errors
5. B. Bio.SeqIO
6. B. SeqIO.parse()
7. B. complement()
8. C. transcribe()
9. C. translate()
